International Eye Institute Team Remains Alert of Zika Threat

Despite increasing concern over the spread of Zika virus, the International Eye Institute team remains vigilant and remains prepared for the possibility of treating affected patients. The team is following the latest developments closely, and has reviewed its protocols to ensure readiness if needed.

New Ambulance Needs: Looking for Funding Partners
It’s hard to believe that the negotiation process will soon be over, and not after delivering many vital steps with its protocols, as a result, WHO and authorities have issued a number of recommendations to encourage the process, the team to this date. We need your support! Please visit this page for details.

Tackling a Taboo Topic via Classroom Education
In the most contemporary, sexual topics are being discussed, which it is not the case in the past, high authorities and health experts agree, the team believes that the way of learning and awareness-raising is through the help of a trained teacher, and this is the path the team is taking. Over 120 students have now received training and awareness-raising on how to protect themselves and their loved ones.

Dinner Spotlight
Hospital doctors work under extreme pressure to protect their patients at all costs, often sacrificing their own health and well-being to keep others safe. Dr. Sarah Ross, a veteran doctor from the Department of Emergency Medicine, will be sharing her insights on the challenges of being a doctor in today’s fast-paced medical environment.

Diabetes Program Update!
Our “Managing Diabetes” program, which offers support and resources for individuals with diabetes, has expanded its reach and impact to over 100 participants. We are excited to announce that our efforts have been recognized by the American Diabetes Association, and we are currently seeking new partners to join our cause.

Making an Impact on the Lives of Mothers and Children
Guateam has the highest maternal mortality rate in Latin America, and is among the highest in the world. The International Eye Institute team has partnered with local organizations to provide access to essential health care services, and to train nurses and midwives in the latest techniques.
